relates to the current RESCOM work and the link between education and ensuring that women and girls are not left behind by the advance of STEM and IT systems

**Session Summary**

Canada has ratified C190.

Still need work to enforce the harassment of women at work including working from home (as per RESCOM/Neelams sessions)

Teacher training needs to understand the new world... kids are linked to screens and do not have basic writing skills. they suffer loss of attention space and cannot read long and complex docs/books. kids are making more than teachers by being 'influencers' or 'digital creators'. teachers don't understand this and cannot help with the management of exploitation that may happen.

Who pays for the electricity for home workers.

Are home workers ( India) being paid less or for less hours as the employers assume that child care is taking them away from their desks.

**How can the session impact GWI members on local, national and/or international levels?**

build themes into RESCOM workplace harassment and STEM

**Next steps: What needs to be done? Collaboration opportunities?:**

**CSW67 Delegate Report Form : Entry # 19451**

build themes into RESCOM workplace harassment and STEM webinars

**Additional Comments**
